SUMMARY

As an aspiring software developer, I bring proficiency in Java, JavaScript, Flutter, React, Node, and Python, along with expertise in Docker, Postman, and Git. A collaborative team player with a friendly approach, I am eager to contribute my skills and innovative mindset to dynamic projects.

PROJECTS

Student Support System

Flutter + SpringBoot application that provides a variety of features that streamlines communication between staff and students.

CCET- Ticketing System (Frontend)

Frontend of Curtin Colombo Events Team Ticketing System made with React.js.

MyList

A simple to-do list application with React.js frontend and Node.js backend API.

Foodies

Android food-ordering application made using Java.
